

## Spare Page

In the last 55 years development within the village has managed to maintain the village  
The proposal of 14023 and 14024 are moving into the fields beyond the confines of  
the village boundaries, encroaching on Greenbelt and impacting on wild life. It  
continues to take advantage of the scenery, wildlife, public walkways and  
dark skies that make this village a safe place and pleasant community.  
If building has to occur, build within the current confines of the village  
Parameters as in 14025. Stop spreading like a cancer into the natural or  
beauty surrounding the village. Building on the land that is SSSI  
creates the flooding.

This is a community where people are polite, speak pleasantly, don't litter. If  
within the village will help maintain the essence of the village and encourage the  
ethos to new joiners, who also wish to live in a village community, and to  
after their neighbours.
